Two Houses Set On Fire Today By Negro-Baiters

TOTAL DEAD NOW FORTY-TWO

Women Mistreated, But the News Kept Quiet for Fear of Inciting Populace

(International News Service.)
East St. Louis, July 5.—Armed with gasoline cans and torches, a mob swooped down upon the black belt again today, setting fire to two houses,

ALBANY COUNCIL PASSES LAW TO PROTECT ALLEYS

MUST BE RID OF CANS AND OTHER GARBAGE.

A full session of the Albany city council Tuesday night passed an ordinance introduced by Mayor E. C. Payne to have all back alleys rid of garbage, cans, trash, lumber and other obstructions. Some of the alleys have been totally closed to vehicles, inconveniencing many. It will be the duty of the police to make frequent visits through the alleys for the purpose of seeing that they are kept clear and unobstructed. A campaign will also be waged to have all weeds in the streets and yards cut. It was pointed out that the city has the right to have these weeds cut at the expense of the property owners.

W. W. Cameron, federal inspector, went before the council and urged that persons not be allowed to go into Lawrence county, kill cattle and bring them back before their hides are removed. Mr. Cameron stated that this practice was indulged in to get around the quarantine law, as this law only applies to live cattle. He further stated that a beef left in this undressed condition for six or eight hours is totally unfit to eat. This proposition was referred to the police committee for action.

City Clerk Henry Hartung called attention to the fact that strictly by law street taxes were delinquent by the first of July, though it has been the custom to pay the taxes on through July. The city clerk was given authority to advertise that street taxes would be delinquent after a date to be set in a few weeks.

The monthly report of the chief of police for the month of June was read, which is as follows: White men arrested, 22; convicted, 18; colored arrested, 3; convicted, 3; fines imposed on whites, \$92.30; fines imposed on colored, \$10.30; total, \$102.60; fines paid in cash, \$91.30; outstanding, \$11.30; total credit, \$102.60.

F. J. Patterson, sanitary officer, reported \$142.55 collected by the sanitary department during the month of June.

The new silk mill authorities asked the city council to furnish a means of getting water down to the location of the mill. The proposition was referred to the water committee.

690 Vessels Sunk By Kaiser's Subs

(International News Service.)
London, July 5.—The 24 vessels sunk by German submarines during the past week brings the U-boat toll to 690 since Feb. 1, not counting the numerous fishing boats sent down.

(International News Service.)

East St. Louis, July 5.—The total death list in the East St. Louis riots mounted early today to 42, of whom 38 were negroes and four were whites.

The mutilated bodies of four negroes were fished out of Cahokia creek late yesterday. Many bodies are still believed buried in the debris of burned homes, and the death list is expected to exceed 75.

Attempted attacks have been made on three more women by blacks since Monday night's rioting. One of the attacks on these women were supposed for fear it might inflame the population. Two thousand, four hundred guardsmen are on duty and the worst is over, officers claim.

"Sink Hollow," a thickly populated negro district, was surrounded by soldiers and police today and it was believed that at least two of the negro ring-leaders of the mob which killed Sergt. Copeedge were trapped.

While three new fires broke out in the negro race riots district today, soldiers and detectives closed in on "Sink Hollow" and citizens started a great clean-up campaign. They plan a complete reconstruction of the city government.

Mayor Mollman is assailed for inaction. Representative business men, including the Chamber of Commerce, have demanded the resignation of Chief of Police Payne and Chief of Detectives Stocker.

Albany Red Cross Clears Good Sum on July Fourth

The "Glorious Fourth" was a gala day for the Albany chapter of the Red Cross.

Dressed in their characteristic uniforms the Red Cross ladies captured the city early in the morning and held full sway all day. From the refreshments sold at the ball game and at Thompson's Drug Store, \$100 was realized, fully half of which was clear. This amount did not come in from big donations either, but from average purchases of ice cream, soft drinks, peanuts and popcorn. The campaign for new members was also very successful, but the number of recruits could not be made known until the regular meeting this afternoon at 4:30 at the Y. M. C. A. building.

Mrs. W. E. Todd, who had charge of the refreshments, announces that the Red Cross ladies are deeply thankful to all for their liberality.

Steamer Claims to Have Sunk Sub

(International News Service.)
An American Port, July 5.—A British steamer arriving here today with 79 passengers reported that a shot from her guns apparently struck a German submarine at 7:30 p. m. on June 26, the U-boat disappearing in a cloud of black smoke.

When asked if he had anything to say, Secretary Thompson replied: "Only this, that the campaign slogan is, 'One Hundred Members a Day for Six Days,' and also in substance I am saying this to all prospective members."

A home-grown, local talent made campaign is to begin in the Twin Cities at 9 o'clock sharp Monday morning and is to continue until 3 o'clock Saturday afternoon. Six days—just six—out of the infinite space of time, are to be given to putting over 600 new members for the local Young Men's Christian Association. It is stated by those in charge of this work that while the "Y" has the inducements and can and will deliver the service, that the stress this year will be laid on the fact that the Association is the one outstanding undenominational institution of the entire world, where men of all creeds and no creeds may find brotherhood. Secretary H. R. Thompson, when he came here in May, stated at that time he had no means of knowing how strongly the third of the four words which name the institution of which he became secretary, was being stressed, but that it was his one ambition to write the word "Christian" over the doors of the Association and in the hearts of all its membership.

The local committee is headed this year, as was a similar one last year, by C. J. Bodemer, master mechanic of the local railroad shops, whose enthusiastic co-operation, together with that of his old lieutenants of last year, C. V. Dupont and Chas. Bassett, insure the success of the campaign. Last year the depleted condition of its treasury placed a handicap on the services rendered by the Association, and consequently on the securing of members, but this year, clear of debt, and directed by a virile secretary and one who appreciates the great responsibilities he is under, the Association is expected readily to attract 600 new to its membership once its claims are faithfully presented. Such a fair presentation is assured by a glance at the personnel of those who have agreed to take the responsibility of recruiting the Y to full war strength. Every man and boy who can is asked to join in the movement to make the local Y the best in the South.

With your help and co-operation we can do it.

The time for this forward step is now.

The Y helps your towns.
The Y helps your churches.
The Y helps your boys.
The Y will help you.
You can help the Y to help others.

Funeral services for Mrs. Chas. Malone, who died Monday at Benevolent hospital, following an operation, will be conducted this afternoon at 3:30 o'clock from the residence at 301 Jackson street, with Rev. E. ALIEN GERMANS ALL SUSPECTED

SPIES TIPPING OFF AMERICAN SECRETS TO THE POE.

(International News Service.)
Washington, July 5.—Every German citizen in the United States is under surveillance today. United States troops have been landed in France and German spies have informed the German government of their sailing.

More United States troops will go to France and the United States government does not intend that the German government shall know of it in advance.

A long list of suspected Germans is in the hands of the department of justice and every available agent is today shadowing them. In official quarters the situation is regarded as critical. Members of the cabinet have become aroused, and the situation will be the subject of discussion at the cabinet meeting tomorrow. Some cabinet members recommend a wholesale arrest of all suspects.

At the same time it is certain that there will be a tightening up of the censoring of outgoing cables. It has been established that information is reaching Germany through Switzerland. It is known here that women have been most successful of German agents to this country, and the department of justice has under suspicion a number of women, including social leaders and even invalids.

FOOD BILL FIGHT WAXING WARMER

EVERY AMENDMENT STIRS UP ENEMIES FOR MEASURE.

(International News Service.)
Washington, July 5.—Armed with the cloture club, administration forces in the senate launched a vigorous drive today to rescue the food and liquor bill from the confusion now threatening it and bring it to a vote early next week.

Increased evidence appeared today that the president would have to take a hand in the fight once again, if no measure is to be saved from long delay, not only in the senate but in conferences after it is sent back to the house.

The senate bill is so overloaded with amendments that new opposition appears at every turn. The southern members are in open revolt at the addition of cotton to the commodities controlled by the bill and even if the administration should succeed in getting the measure to the senate next week it is sure to meet with even more determined opposition and delay in the house, where the south exercises even greater control.

Leaders in charge of the bill hope to reach the prohibition amendment before the end of the day.

Teachers to Decide Whether Will Work and Take a Chance

Supt. J. C. Tidwell announced today that of the \$1,000 one-mill tax from the state that he was expecting to use in paying the teachers of summer schools, the state would be unable to pay nothing at present, if at all.

Supt. Tidwell received a letter this morning from Governor Henderson frankly stating that the state would not be able to meet its obligation to teachers before tax gathering time again.

The next scholastic term begins in October and whether the state can use the money collected from taxes to pay the back dues of the teachers is the question confronting Superintendent Tidwell. He says he will put the proposition up to the teachers of the county and they may use their judgment as to whether they will teach the summer schools and take the chances of getting pay.

"JOE WHEELER" AMBULANCE SENT TO FRANCE

The New York chapter of the United Daughters of the Confederacy has sent an ambulance to France, naming it "Joe Wheeler." This chapter purchased a Liberty Bond as a memorial to the great soldier and statesman, the interest on which is to be given to the Red Cross, and individual members of the chapter contributed liberally for the maintenance of the ambulance.

REICHSTAG MEETS IN BERLIN TODAY; PEACE TALK HEARD

Expected That Chancellor Will Define Germany's Position in Regard to Ending War

RUSS CAPTIVES NOW TOTAL 20,000

Great Drive Begun on Eastern Front is Costing Teutons Much

(International News Service.)

Amsterdam, July 5.—Public interest over the meeting of the Reichstag at Berlin today ran high here. It was expected that the German chancellor, Dr. Von Bethmann-Hollweg, would make an important address, probably touching on peace.

A dispatch from Berlin said that the session would likely be a short one and that it would likely deal with war measures.

In connection with the talk of peace, it is reported at Berlin that the Kaiser is going to Vienna this week.

TWENTY THOUSAND TOTAL OF RUSSIAN PRISONERS

(International News Service.)

Petrograd, July 5.—Nearly 20,000 German and Austro-Hungarian prisoners now are in the hands of the Russians as the result of the first three days fighting of the new offensive.

Around Brzeznay the battle still rages, the Germans fighting desperately to maintain their high positions along the Tarnopol-Rohatyn railway, west of the Zlota river. Heavy loss of life has been inflicted upon the Austro-Hungarian troops. Dispatches from the front today admitted that the Russian advances had cost sacrifices.

Wild Cat Still Found Seven Miles Out By Alert Revenue Agents

Some poor fellow was denied the privilege of associating with his friend, John Barleycorn, on the "Glorious Fourth," and it was all due to the activity of the dreaded revenue man. Federal Inspector E. S. Cunningham, and Deputy Sheriff S. S. Williams, were given a tip as to the location of a large still near Russell Spring, seven miles out on the Mul-ton pike.

These two officers of the law hied away to said place, where, situated in a thick clump of bushes, they found a well equipped still and other material, which they destroyed or took in custody. However, these officers were out after whiskey (not to drink), but they found none, neither was the owner of the still apprehended.

PLANNING EXILE OF CHINK LEADER

FORMER PRESIDENT IS NOW IN JAP LEGATION FOR PROTECTION.

(International News Service.)

Tian Tsin, July 5.—Li Yuan Huang, ex-president of China, is to be exiled, according to information from Peking today.

At the present time the deposed president is a fugitive in the Japanese legation in Peking, guarded by Japanese bayonets.

There are reports that fighting in the south and throughout the empire indicate that if civil war is not already under way it is imminent. There are persistent reports that Japan will land troops in China to "protect Japanese interests."

China has two governments today. A number of executions have taken place.

DISPATCHES CLAIM CHINA STILL LIKES DEMOCRACY

(International News Service.)
Washington, July 5.—Republicanism has by no means been overthrown in China, according to a dispatch to the state department today. These agree that the Manchu adherent is not getting the support expected.

Uncle Sam's Money Vanishes Rapidly

(International News Service.)
Washington, July 5.—If advances of money to the allies of the United States continues throughout the summer at the present rate the proceeds of the first \$2,000,000,000 installment of the Liberty loan will be used up before autumn. The regular financing program of the treasury contemplates the advance of close to another billion dollars to the allies by October.

Secretary McAdoo has announced that he plans to declare another issue of war bonds in the fall.

"Fourth" Fatalities Show a Decrease

(International News Service.)
Chicago, July 5.—The Chicago Tribune, which annually collects Fourth of July statistics, today says five persons were killed and 196 wounded in the celebrations throughout the United States yesterday. This compares with 20 killed and 820 hurt in 1916.

Y. M. C. A. TO OPEN

MEMBERSHIP CAMPAIGN.

The Y. M. C. A. membership campaign which is to start Monday next, has for its object the maintenance of one of the very best Christian institutions of the world. If the association has ever been a failure, the fault has been local and isolated. The great body of the brotherhood has ever been up and about the work of practical Christianity. The association movement grew out of a deep religious concern for the betterment of men and their conditions. Its history dates back into the last century and many great men have testified to the importance of the movement. Dr. John A. Broadus, during his lifetime, perhaps, the greatest Baptist preacher in the whole Southern Baptist convention, and the father of the late S. S. Broadus of Decatur, once declared that the Y. M. C. A. movement was "the most significant of the nineteenth century." In its efforts and achievements since Sir George Williams of London, organized the first Y. M. C. A. 140 years ago on up to its present world-wide scope, have been enlisted the talent of some of the brainiest and best men of the age. In America, under the leadership of John R. Mott, now a member of the American war mission to Russia, the Association has gone forward in leaps and bounds. Millions upon millions of dollars have been invested in great buildings throughout the world for housing the associations. So great has been the material prosperity of this brotherhood that Mr. Mott at the International R. Y. M. C. A. convention, held in Toronto a few years ago, publicly expressed concern lest its physical growth surpass the spiritual growth of the Association.

The local Association building is one of the best appointed and most attractive of the smaller Association buildings found anywhere. It was erected by a co-operative effort of the people of these cities and the L. & N. railroad about 16 years ago. Because the railroad furnished the larger share of money for its erection, maintains the building in repair, and contributes monthly to the support of its work, the local Association is known as a railroad association, but the institution is meant to contribute more the less to the good and for the general uplift of the whole community. Such considerations as these and others that will readily suggest themselves should make it easy for the Y. M. C. A. to recruit up to full war strength. If you should be inadvertently overlooked by the committee, send in your name for membership anyway.

RUSSIA'S RESUMPTION OF AGGRESSIVE FIGHTING.

The very best news that has reached the allied nations within a year is that the Russian armies are again on the offensive. After months of inactivity, due to internal conditions in the new republic, the Slavs are being led into battle against the Germans, and if press reports are correct the new minister of war, Koresnsky, a socialist, but 28 years of age, and undoubtedly the "strong man" produced by the change of regimes, is personally at their head, inspiring them by the heroic exposure of his own person on the firing line.

That Russia has broken off the tacit armistice and actively joined

with the enemies of Germany in bringing the war to an end, is taken in America as the surest guarantee of Russia's rejection of the Berlin proposal for a separate peace. With the Russian armies idle, and the Russian people torn into factions, skies that should have been bright were overcast. With Russia militant, fired by a new and a better aim, there is no room to doubt the termination of the world conflict within the next two years, provided that the allies are not deceiving themselves as to the scope and purpose of the new move upon the military checker board.

Many lay critics of military affairs hold the opinion that but for the unexpected denouement in Russia, the allies would have been able to break through the German lines and practically end the war this year. This dream was ruthlessly shattered. The soldiers of the republic withheld their blows at the time when they were most needed, and the British offensive, for which preparation had been made during the past two years, was launched in the nick of time to prevent Von Hindenburg from hurling his legions against the passive troops of Brusiloff.

It is devoutly to be hoped that the great Russian nation, twice as large in area as is the United States, and with a population fifty per cent greater, is in the war to the finish. It is high time the allies were making a concerted drive from every front. Heretofore the French, British and Russian troops have fought spasmodically, enabling the Kaiser and his general staff to move men at will from the east to the west and back to the east again over strategic railways. In the future, this condition may be changed. It all depends on Russia.

To Make Cut Glass Sparkle.

To make cut glass shine and sparkle, first wash in lukewarm water and soap, using a toothbrush to brush the cuts with. Then have some medium-strength bluing water ready and dip the pieces of glass in this. Then dry on a linen towel.

To Tell Artificial Amber.

One way to tell artificial amber, which is made of copal, a resinous substance, turpentine and camphor, from the real is to apply ether to it. If it melts it is sure to be artificial. Ether does not affect the genuine article.

Family Pride.

I frankly confess I have a respect for family pride. If it be a prejudice, it is prejudice in its most picturesque shape. But I hold it is connected with some of the noblest feelings in our nature.—L. E. Landon.

Pleasure Comes Unexpectedly.

Pleasure is very seldom found where it is sought. Our brightest blazes of gladness are commonly kindled by unexpected sparks.—Johnson.

Tense.

"A man who doesn't like to dwell upon his past," said the almost-philosophical, "usually has one that isn't perfect."

Many Bees in Colony.

A colony of bees in summer consists of from 50,000 to 100,000 individuals. Each colony contains one queen, several hundred drones and the balance workers. The latter are neuter or undeveloped females, and they do all the work in the hive, and gather their food from the flowers, which consists of honey and pollen. They also gather propolis, a resinous substance used to stop cracks and holes in the hive.

Queer Chinese Custom.

In China every member of a family is responsible for order in that family, and every inhabitant of a city is jointly responsible with every other citizen for its tranquillity. If a younger son in a family should commit a crime, the older son is likely to be taken into custody for the offense and, perhaps, punished.

Insects Take Heavy Toll.

Insects destroy a billion dollars worth of crops every year. The natural enemy of these noxious insects is the American song bird. The boll weevil alone takes \$350,000,000 away from the cotton growers annually. The best possible antidote for the weevil is the weevil's natural enemy, the bird.

What Warships Cost.

A modern giant battle cruiser will cost approximately \$20,000,000; a super-dreadnaught can be built for \$18,000,000; a scout cruiser for \$6,000,000; a destroyer for \$1,800,000; while ordinary submarines cost \$800,000 each for the smaller type, and from \$1,000,000 to \$1,200,000 each for the larger boats.

Two Scores Net Two Wins For Locals In Double Bill

Moulton Defeated Narrowly in Best Pastiming of Season. Homers Rapped Out

The Fourth of July, furnished local fans with two of the prettiest played games witnessed here in many a long day, when the Y. M. C. A. triumphed over Moulton in a twin-bill, scores 2 to 1 and 3 to 2, respectively.

Everything seemed to be made to order for snappy playing in both of these games. Not a single kick was registered against the umpire's decisions in either bout, and fast, snappy, clean work was prevalent throughout.

The cold drink privilege had been donated to the local Red Cross society, and the bevy of beautiful girls dispensing these beverages had a field day. Everyone bought in large quantities, and quite a neat sum was realized as a result. In the second inning of the first game a crowd of twenty Morgan county colored convicts were ushered in under guard to witness the games, and the boys in stripes seemed to enjoy the mills hugely.

Moulton was a bit shy on catchers in both games, and two local boys, Watson and Hill, did the receiving for the visitors. The locals got the jump on Wykle in the first round by scoring two runs, a lead that Moulton was never able to overcome. After Halbrooks had gone out, Bragg to Cowan, Frohoff was safe when Russell heaved his roller wild to first. E. Barnes walked. Williams then fired a one-base blow to left, scoring Frohoff. Mitweide fanned, but Hodge rapped a two-sacker to right, tallying Barnes. Williams tried to score on a passed ball but Wykle took Watson's throw at the plate and Williams was out.

Barnes kept Moulton's hits well scattered and all the visiting efforts proved fruitless until the seventh, when Moulton's only run was scored. Bragg singled to right. Russell hit to Williams who tossed to Halbrooks at second, but Bragg was safe. Halbrooks' relay to Hodge was low and got away. Cowan grounded out to Hodge. McKelvey rapped sharply to left, scoring Bragg. Watson ended the game by grounding out, Williams to Hodge.

This game was a neat little pitchers' battle between Barnes and Wykle, with but little to choose between the two. Wykle had one bad inning, the first, when two runs were scored, but Barnes proved steady and consistent throughout. The all-round good work of Williams was the big feature of this game.

Second Game.

Wykle, after losing the first game by a close score, gamely faced the locals for another try in the second fracas. Gordon, the most promising man on the local flinging corps, was pitted against him.

Kumpe led off with a terrific smash to center on the first ball pitched, and it looked like Moulton was about to stage a batting fest. But Gordon struck Almon out, and Stevens hit to Williams who pulled a nifty double play unassisted that brought the grandstand to its feet with a tumultuous roar. Halbrooks smote Wykle's first offering for a homer in the locals' half of the first.

Moulton came back strong in the second inning. Bragg was nicked in the side by one of Gordon's shoots, and ambled to first. Bennie Russell then smote one to the bramble bushes afar for a home run, scoring Bragg ahead of him. Cowan grounded to Williams and was safe when the latter juggled. McKelvey whiffed, but Hill got a life on Halbrooks' fumble. Wykle slammed a scorcher at Mitweide, but the Dutchman speared it.

and touched third, thus completing a double unassisted.

In the second Mitweide lifted one away up to the Zeppelin's home town, and Stevens, after wandering around under it for several minutes, misjudged the ball, and Mitweide scampered to third while the pill rolled to the fence. Hodge lifted a sacrifice fly to right, Mitweide scoring.

The winning run came over in the third. Halbrooks angled to right. Frohoff beat out an infield hit to short. Halbrooks was caught in a chase between second and third and run out, Kumpe to Bragg to Russell to Wykle. Wykle-tagged Halbrooks then whirled and heaved to second to catch Frohoff, but nobody covered, the ball rolling to right field and Frohoff scored.

Wykle was strong throughout the first game, but weakened slightly in the second and was clearly outpitched by Gordon. This boy hurled a masterful game, was never in danger, and allowed Moulton only two safe blows.

THE NEWEST REMEDY

FOR Backache, Rheumatism and Dropsy.

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and joints, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try "Anuric."

During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The purer kidneys get tired and backache begins. This is a good time to take "Anuric," the new discovery of Dr. Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many deaths, and Insurance Company examining doctors always test the water of an applicant before a policy will be issued. Have you ever seen a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. The true nature and character of diseases, especially those of the kidneys and urinary organs, can often be determined by a careful chemical analysis and microscopic examination. This is done by expert chemists of the Medical Staff of the Invalids' Hotel. If you wish to know your condition send a sample of your water to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y. and describe your symptoms. It will be examined without any expense to you, and Doctor Pierce or his Staff of Assisting Physicians will inform you truthfully.

KNOW YOURSELF!

Read all about yourself, your system, physiology, anatomy, hygiene, simple home cures, etc., in the "Common Sense Medical Adviser," a book of 1000 pages. Send to Dr. V. M. Pierce, Buffalo, N. Y. three dimes or thirty cents in one-cent stamps for a cloth-bound copy.

Major B. F. Holmes has returned from a business trip.

Very Likely.

"I wonder who it was that started the report that 'silence is golden,'" queried the inquisitive party.
 "Oh, some chap who wrote and sold his jokes instead of telling them," replied the wise guy.

What He Left.

She—Did you leave your heart behind you at the seashore last summer?

He—No. But I was forced to leave my trunk behind me when I left.

SOCIETY

Margaret Clinton Shelton, Phone 662, Albany

MANY LOCAL PEOPLE ATTEND HUNTSVILLE DANCE.

Forty members of Albany and Decatur society attended the dance last night at the Monte Sano Hotel for the benefit of the Red Cross. The function was one of the most delightful affairs of the season, and the dancing set of nearly all North Alabama cities was represented. Music was by Vito's orchestra. Many of those attending from here motored to Huntsville, returning early this morning. Huntsville, with its usual hospitality, gave the visitors a most cordial welcome. Among those attending from here were: Mr. and Mrs. J. H. Calvin, Mr. and Mrs. Fred Hunt, Mr. and Mrs. Phil Pointer, Mr. and Mrs. Dyke Echols, Mr. and Mrs. Herbert Odum, Mr. and Mrs. Frank Lide, W. E. Crawford, Miss Brookie Gibson, Miss Helen Wallace, Miss Carolee Speake, Miss Rivenbach, Carlisle Blackwell, Fred Hammond, Stanley Wyatt, Jim Johnson, James and Robert Webster, Spencer Garnett, Carl Goodman, Milton Lipscomb, George Wallace, Tom Gardner, H. D. Harkender, John Minor, Clifton Almon, Lamar Eyster, Gilbert White.

BROWN-DENTON.

A wedding of great interest to a large circle of friends was that of Miss Maggie Belle Denton and Mr. Job Brown, that occurred at the home of the bride's sister, Mrs. Forrest Pettey, on Tuesday morning at 10 o'clock. The ceremony was performed by Rev. L. W. Young. The bride was attired in pale blue tulle with touches of metal lace. The room was decorated with palms, ferns and cut flowers. Mrs. Forrest Pettey receiving the guests, was gown in navy blue. Mr. and Mrs. Brown will be at home on Fifth avenue, south.

Mrs. C. L. Saunders is greatly improved at the Benevolent hospital, so that an operation will not be necessary.

Mrs. W. E. Crawford underwent a successful operation at Nashville this week, according to a telegram from her physician, Dr. F. P. Pettey.

Mrs. Josephine Sheets arrived today and is with Mrs. B. B. Pickens.

Edwin and Miss Cathleen Humphrey, of Madison, were the guests yesterday of their aunt, Mrs. R. H. Wolcott.

Mr. and Mrs. Earl Calvin spent Sunday with friends at Athens.

Mr. and Mrs. F. L. Barnes will leave for Huntsville and Chattanooga today for a few weeks' stay.

New Foe to Bacteria.

Doctor Browning, discoverer of the new antiseptic flavine, speaking before the governors of the Middlesex (England) hospital, said that before the war all the potent antiseptics were also highly poisonous to the living body, and many most distinguished surgeons expressed the desire for an antiseptic capable of attacking bacteria, but not harming tissues. He submitted that flavine fulfilled these requirements, and that by cutting short septic poisoning in wounds it would prove a gain, the magnitude of which could scarcely be realized. Even more interesting was Doctor Browning's assurance that the possibilities of such a discovery were by no means exhausted, and that the investigation of agents for the treatment of tuberculosis and other infective diseases had already begun.

An Exposition of Doubt.

"Is your daughter studying music?" "I wouldn't exactly call it studying," replied Mr. Cumrox. "She makes so much noise about it, I don't see how she can possibly get her mind on the subject."

AMUSEMENTS

Tears and Laughter Abound in "The End of the Tour."

"The End of the Tour," the Metro-Columbia feature comedy drama, starring Lionel Barrymore, will be seen at the Delite and Star Theatres on Friday. "The End of the Tour" has been adapted and directed by George D. Baker from the story by Earle Mitchell. It is a play that contains a strong human interest—a plea for happiness.

Humorous touches abound in "The End of the Tour." Mr. Barrymore excels as "Buddy" Bennett, leading man of the Chicago Ideals Theatre Co., and the cast supporting him includes Ethel Dayton, Frank Currier, Mary Taylor, Maud Hill, Kate Blackie and Walter Hiers.

Nature.

"How old is Miss Filberts?" "She has reached the point where she has quit sighing for a soul mate and is looking around for a good provider."

"But you haven't told me yet how old she is."

"I judge she's over twenty-five."

Guess He Was "Stung."

"Yes," said the constant reader. "I'm stuck on one of your books."

"Which one?" asked the author with the high brow.

"Why, the one I bought," answered the party of the reading part.

EVERY MOTHER WANTS A BOUNCING BABY

Thompson's Food (Peptonized) is peculiarly adapted to infant feeding, as it is most nearly like mother's milk. It contains all the elements so necessary to the proper growth of the infant and is the only brand of food containing in combination the food values of pure, sweet milk, select barley malt and the elements of beef juice.

If you want your baby to become strong, healthy, full of life and vigor, feed it Thompson's Food (Peptonized).

It is a complete food in itself. Very easily prepared by the mere addition of water. It is not a milk modifier. Its use eliminates the danger usually associated with the local milk supply.

We suggest that you try a 50c package with our guarantee of satisfaction.

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

It is the Universal System Purifier and we stand back of it because it is a real medicine prepared in one of the finest medical laboratories in the United States, with all the care and skill of a physician's prescription for kidney, liver and stomach troubles, nervousness, sleeplessness, loss of appetite and run-down condition.

What Others Say

Mr. Claude M. Marshall, farmer, Davidson Co., Tenn., just out of Nashville, says: "I have never been in a bad fix. I was, until I took Vin Hepatica. Work on the farm is very hard and the hours are long and while I had plenty to eat, the more I ate the worse I got. I was run out of breath. Vin Hepatica has enabled me to do my work with ease and pleasure and I can now eat anything I want."

Mrs. Wm. French, Marcus Hook, Pa., says: "For years I suffered severe stomach trouble until I was so weak and run down I could hardly do my household work. Had to rest in bed most of the time and could scarcely eat. Even the odor of cooking would upset my stomach. Vin Hepatica relieved me of all my troubles and I am now bright, cheerful and very grateful for what it has done for me."

Rev. G. F. Harris, Route 11, West Nashville, 68 years minister of the gospel and four years Confederate Veteran, states: "I had gone down in my entire system; had stiffening and soreness of the joints, hardly able to work at all. Took Vin Hepatica and now doing a good day's work for a man of my age. Can heartily recommend Vin Hepatica as a wonderful medicine and Universal System Purifier. It has brought me back to health again."

Come and let us tell you more about it.

A. R. Smith Dies Suddenly at Local Hotel, of Indigestion

The remains of A. R. Smith, federal pension inspector, were sent yesterday to his home in Brentwood, Ky., following his death the night before at a local hotel. He appeared to be in good spirits and ate a hearty supper before going to his room, but he was found dead the next morning in his bed. There was evidence of his having taken a bath before retiring. Chief of Police Earnest Carriger and County Coroner W. M. Chenaull were soon on the job. Letters were found in the room of the deceased from his wife. She stated in one letter that she hoped that his headache and stomach trouble would get better. The conclusion was that something like heart trouble or acute indigestion caused his death. Besides letters from his wife there were letters from the federal pension department at Washington. Also there was a diamond ring on his finger and \$65.72 in money in his pockets. The letters of his wife indicated that he had two or three children.

BOY DROWNED IN TENNESSEE RIVER

CHARLES CAMPBELL FALLS INTO THE STREAM AND LOSES HIS LIFE.

Mr. and Mrs. Hubbard Campbell returned last night from Pulaski, Tenn., where they went to take the remains of their six-year-old son, Charles, who was drowned last Tuesday afternoon in the Tennessee river.

Campbell, who is a blacksmith, came here from Pulaski only a few months ago, and Mrs. Campbell and gone there on business at the time of the unfortunate loss of the son. She had instructed her husband to not let the two sons go about the river. But while he was at work at his blacksmith shop, the two boys, Fred, aged about 10, and Charles, slipped away to the river. Their father soon found out they were gone and followed them.

The two boys had gone on to the filling station near the foot of Bank street, and from it had jumped across to a boat. At this time the boys saw their father who had come after them. The older boy jumped back on the filling station, but Charles, the younger, in making an effort to jump, slipped and fell between the two boats. His father could not swim and as the boy did not come to the top, he could not be taken out for some time until help arrived.

Millions Loaned to Farmers of America

(International News Service.)
Washington, July 5.—Four thousand four hundred and forty American farmers have borrowed an average of \$2,500 through the rural credit system, or a total of nearly \$12,000,000, the federal farm loan board announced today.

Although the farm loan act became a law less than a year ago, 23 national farm loan associations have been chartered.

The twelve farm loan banks have applications for \$100,000,000 in loans which they have been unable to

NEGRO DROWNED NEAR HILLSBORO

Jim Elliott, a negro, was drowned in Goose Pond, two and one-half miles from Hillsboro, yesterday, according to word received here today from City Marshal Terry of Hillsboro.

The report was that Elliott, aged 11, was in swimming with several other negroes. He stayed in the water longer than the others, and got in water over his head. He could not swim, and he drowned before he could be rescued. He was married.

22,685 Airships to be Built By U. S.

(International News Service.)
Washington, July 5.—Preliminary draft of bills for the re-organization of American aeronautics, including the construction of 22,685 aeroplanes and the expenditure of a total of \$39,000,000 was before the house military affairs committee today. It provides for the organization and the personnel of the new air service, while the other appropriates the funds.

Mrs. English Dies From Stroke Paralysis

Funeral services for Mrs. D. F. English, who died at her home in Austinville, this morning about 2 o'clock, will be held at the Methodist church of Austinville tomorrow morning at 10 o'clock. Interment will follow at City cemetery.

Mrs. English suffered a stroke of paralysis late Tuesday afternoon while she was milking. She scarcely recovered consciousness.

Mrs. English was near 70 years of age and is survived by her husband, two sons and one daughter. She was a member of the Methodist church.

Reason of the Dog Watch.
The "dog watch" on board ship is two half hour watches between 4 and 6 and 8 and 8 in the evening of the maritime day. The day is thus divided into seven watches instead of six, as the latter number would give the more arduous time of duty continuously to one section of the crew. By the device of the dog watch the duty is divided equally in the course of every two days.

Its Arrangement.
"This is a strictly up to date prison." "Yes; I notice the drink prisoners are behind bars, the women inmates are in tiers, and the more intelligent prisoners, I suppose, they put in brain cells."—Baltimore American.

Our Own Censors Alone Are Trusted

(International News Service.)
Washington, July 5.—Secretary Baker on returning from New York today cleared up misunderstandings in regard to news relating to troop movements. The United States government was not satisfied to rely on British and French censors, it was declared, but has made arrangements to revise all press dispatches sent to this country.

Fitting Artificial Legs.
In order that one who has lost a leg may select the type of artificial limb best suited to him, a French inventor has perfected an apparatus which accurately records the movements of the feet of artificial legs while the wearer is walking.

Beware of Boredom!
Don't let yourself get into the habit of being bored. It is not worth while. When you feel it coming on plunge at once into some task that will take all your time and energy. It is better to run away from certain things than to let them irritate you.

BIG FURNITURE SALE The Last Chance!

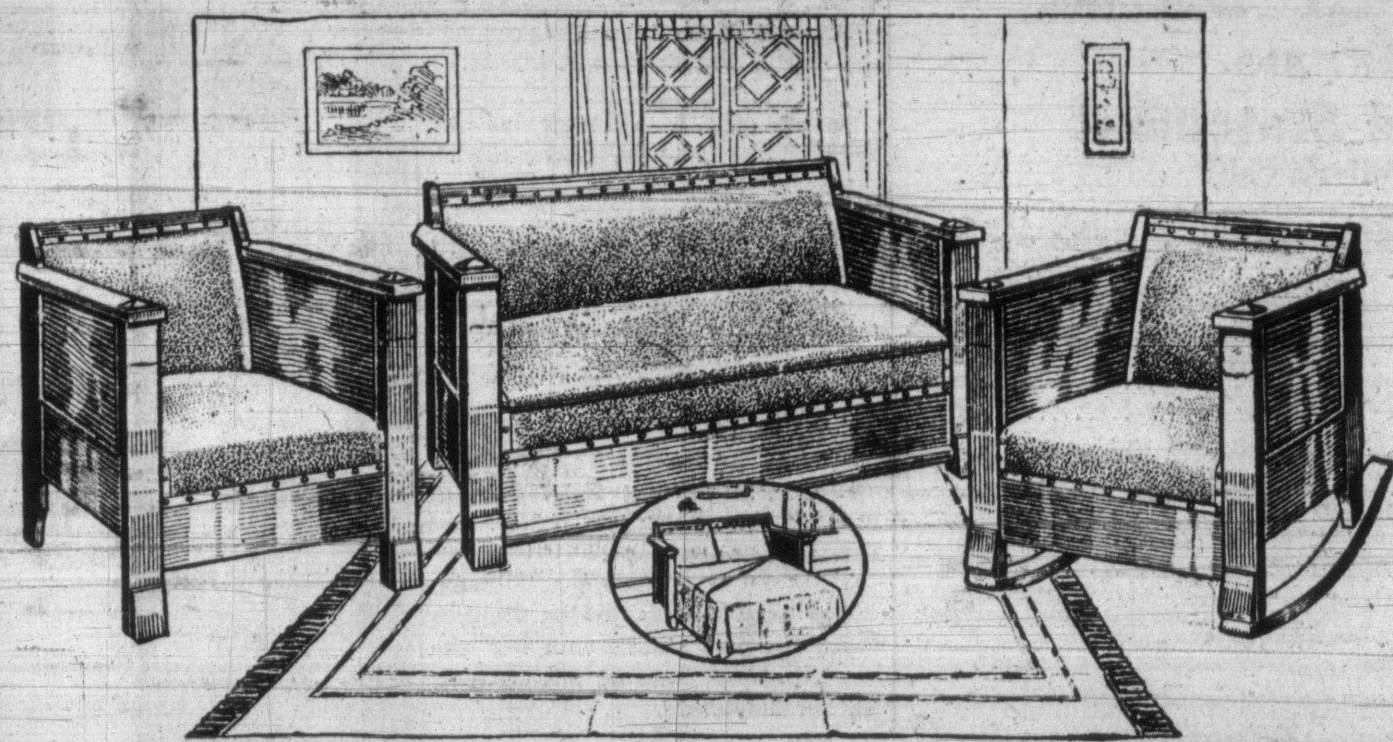

Our stupendous Furniture Sale will close Saturday, July 7, and we hereby take this method of warning the shoppers of this section of the golden money-saving opportunities they are letting slide by.

Everything in our store has been marked down low, so that it will be within the means of everyone to purchase heavily at this sale, for everything bought during this period is just like making a certain amount of money—for Money Saved is Money Made.

It will be many a long day before another chance like this will be accorded the buyers of these towns to beautify and make their homes comfortable at such low prices.

We want to urge every householder in Morgan county to come in and inspect our mammoth stock of FURNITURE, HOUSE FURNISHINGS, STOVES and RANGES during the next two days of grace.

Hundreds of buyers have visited us during the great Sale, but we feel that there are numerous others who should also get the benefit of these great bargains. Therefore, we are issuing this last call to them. We are in position to furnish your home from cellar to attic, at a price that will be almost forgotten in no time, for even should we sell these goods at their former prices the memory of quality would remain long after the price had been forgotten. Look the following items over, then call on us:

Art and Nature.

Art is the expression of life. Nature is beloved by every normal human being. Because of this we are apt to think that nature is art. Nature is the inspiration for art, but the two are widely different. Nature does not take into consideration the needs to which these objects are to be put. A bower growing in the field was never supposed to be embroidered on a soft pillow or painted on a plate. If you are translating anything into art, conventionalize it.—Exchange.
